

# Introducing the Premiere Oncology On-Site Physician Dispensing Program

We are pleased to introduce a new service designed for the convenience of our patients and caregivers. To better meet our patients' needs, we are now dispensing on-site many of the medications prescribed by your physicians here at Premiere Oncology.

For more detailed information about the program, please call 310 633-8400 and ask for Nurse Practitioner Aileen Tangonan.

## WHAT YOU NEED TO KNOW

- Filling prescriptions on site at Premiere Oncology takes just a few minutes.
- The service is particularly helpful for new prescriptions and refill prescriptions given to you during the course of your Premiere Oncology physician visit.
- In addition to our most frequently prescribed medications, we are focusing on stocking prescriptions that have been difficult for our patients to acquire.
- While we may not carry all of the medications you require just yet, as the program grows we are working toward the expansion of prescription offerings. Please note, at this time, we are unable to fill controlled substance prescriptions such as sleep and pain medications.
- The co-pay costs are no different than they would be in your local pharmacy
- The Premiere Oncology Physician Dispensing Program uses the same software and has the same relationships with patients' insurance companies/Medicare as any retail pharmacy.
- Note, there is no obligation to have prescriptions filled at Premiere Oncology and you may continue to receive your medications from the pharmacy of your choice.
